Why Use Cleaning Equipment?

A cleaner environment is a safer environment.

Maintaining high cleanliness standards in any facility is challenging. For hospitals and other healthcare facilities especially, there is little room for error. Cleaning equipment is a safe solution that can improve the level of cleanliness, increase productivity, and reduce labor costs.

DID YOU KNOW THAT

90% of a floor maintenance budget is spent on labor?

Complimentary site surveys, recommendations, and demonstrations by our cleaning equipment and chemical experts

The best way to maintain your floors is by implementing an effective floor care program using superior products and equipment that provide proven labor and cost savings.

Why Buckeye Cleaning Centers?

Nilfisk is a proud partner of Buckeye Cleaning Centers.

Whether you're cleaning a classroom, hospital room, or sports arena, Buckeye and Nilfisk have partnered to provide solutions for any challenge in any facility. This partnership is a one-stop-shop for vacuums, carpet extractors, floor scrubbers, robotic floor scrubbers, sweepers, touch-free restroom cleaners, and more.

Both Buckeye and Nilfisk have over 100 years of experience in the maintenance industry and robust national service networks that are there when you need them. Their cleaning equipment and chemical experts offer complimentary site surveys, recommendations, and demonstrations. With cutting edge technology, Buckeye and Nilfisk find sustainable, cost-saving solutions and continue to adapt to the changing needs of customers with innovative products and programs.

NILFISK UNIVERSITY MOBILE TRAINER APP

Product training at your fingertips!

- Use and care videos
- Use and care posters
- Product data sheets
- Operator manuals
- Parts manual
- Input service requests
- Send brochures and video via text or email

VACUUMS

Frequent and thorough cleaning is key, not only as part of soft floor maintenance, but to keep facilities safe and healthy. Especially for high-traffic areas, such as entryways, restorative deep cleaning helps keep carpet in top condition and extends its lifespan. Our vacuums come with The Carpet and Rug Institute's Seal of Approval.

CarpetMaster® 215 DUAL MOTOR UPRIGHT VACUUM 403282

- Available in 12", 15" and 18" cleaning paths
- Standard H.E.P.A. filtration
- Accessible tools and quick-draw wand
- Tool free servicing and clog clearing

Comfort Pak™ BACKPACK VACUUM WITH TOOL KIT 403222

- 4-stage filtration; H.E.P.A. is optional
- Comfortable and lightweight with large capacity
- Unique harness design reduces operator strain

ReliaVac® 12 SINGLE MOTOR UPRIGHT VACUUM 400143

- Available in 12" and 16" cleaning paths
- Durable steel brush roller
- Replaceable bristle strips and beater bars for versatile cleaning
- Lifetime guarantee on the impeller fans

Summit Pro® 18SQ WET AND DRY VACUUM 404644

- 18 gallon tank capacity
- Integrated 24-inch front-mounted squeegee assembly with pedal actuator
- Includes 5-piece tool kit, 9-foot hose and stainless wand with onboard storage

VU500™ 12-INCH UPRIGHT VACUUM 407180

- Available in 12" or 15" cleaning paths
- Increased operator efficiency with the Advance Radius Turning System
- Auto brush height adjustment adapts to any carpet height or hard floor
- Standard H.E.P.A.
- Increased operator efficiency with the Advance Radius Turning System

CARPET EXTRACTOR

In commercial and institutional facilities, deep cleaning is typically performed at least annually. It may also be done on an as-needed basis, such as after special events that bring in a lot of foot traffic, when hard-to-remove stains (e.g., oil, grease, coffee) are present, and as part of a cleaning and disinfection process to eliminate pathogens.

Scan the QR code to watch a short video about the Viper CEX 410.

Viper CEX410 CARPET EXTRACTOR 407452

- Easy to use and maintain
- Twist-lock spray jets
- Optional 12-inch wand, 3.5-inch hand tool, and 15-foot vacuum and solution hoses

Viper WOLF130 SELF-CONTAINED CARPET SPOTTER 407165

- Removable tank for easy empty and refill
- Clear hand tool for better overview of soil/solution pickup and removal
- Built-in wheels for easy transport and storage

EX40™ 16ST SELF-CONTAINED EXTRACTOR 405350

- Easy One-Touch™ controls
- Ergonomic handle for improved control
- Front mounted drain hose

FLOOR MACHINES AND BURNISHERS

Floor machines are often considered the work horse of the floor care industry. Floor machines can be used to clean, buff, and strip floor finishes. Orbital floor machines provide more aggressive scrubbing and easier floor finish removal.

Burnishers operate at a high rpm (1,500-2,000) and are designed to restore a floor's shine. A burnisher uses heat and friction to smooth out imperfections on the surface of a floor or a floor's finish.

FM40™ LX

ORBITAL FLOOR MACHINE

405378

- Perfect for cleaning and screening wood floors
- Dust containment kit, solution tank kit, various scrub pads and sand screens available
- Cleans, buffs, scrubs, strips, and surface preps
- Vertical pad perfect for cleaning baseboards

CLARKE CFP PRO 20HD

LOW-SPEED FLOOR MACHINE

404656

- All-metal construction
- CSA approved
- 1.5 hp, pad driver included

Advolution™ 20 & 20 XP

CORD ELECTRIC BURNISHER

- Gas spring technology regulates head pressure for maximum floor shine regardless of operator's previous burnisher experience
- Unique scrub deck stores vertically to create a small storage footprint and ease of pad change out
- Direct drive transmission eliminates the need to adjust and replace noisy belts and bearings
- Advolution 20 runs at 1,500 rpm. The Advolution 20XP operates at 2,000 rpms and features a dual port dust control system

Ultra Speed Pro® 1500

MASTER OF THE WET-LOOK SHINE.

CORD-ELECTRIC BURNISHER

404657

- All-metal construction
- 1,500 rpm produces wet-look shine
- Easy-to-use, fingertip controls

SPECIALTY PRODUCTS

Air Blower AM2400D™

3 SPEED AIR BLOWER FOR FLOORS AND CARPETS

405525

- Three speed settings
- Four angle settings
- Onboard outlet for daisy-chaining up to 3 units
- Optional trolley kit with wheels and retractable handle for transportation

Restroom Cleaner TFC 400™

POWERFUL AND VERSATILE

ALL-PURPOSE CLEANER

403471

- Designed to address most facilities greatest cleaning challenge restrooms
- Touch-free, all-purpose cleaner
- Small footprint for easy storage
- Compact, maneuverable
- Labor and cost saver

Works great with
Marauder and Terminator!

SCRUBBERS

Powerful cleaning machines that can be used to efficiently and effectively clean floors, replacing traditional mops and buckets. They work to apply cleaning solution and aggressively scrub and dry surfaces in one pass. Being able to clean with only one pass, as well as the ability to clean more square footage per hour, floor scrubbers help to speed up the cleaning process significantly. Whether you need a compact walk-behind scrubber to clean narrow spaces, such as your hallways or entryways, or you need a large ride-on scrubber to clean larger surface areas, such as a warehouse or an entire school, we have a machine that will fit the application.

Scan the QR code to watch a short video about the SC750.

Nilfisk scrubbers work great with:
Eco pH Neutral Cleaner E31/S31
Eco Floor Cleaner Fragrance-Free E32/S32
Eco Floor Cleaner E33

VANTAGE 14

BATTERY OPERATED MICRO SCRUBBER

404252

- Patented rotating scrub deck allows for scrubbing both forward and backward
- Standard onboard charger
- Superior vacuum system provides 100% water pick-up, leave floors dry and ready for traffic
- Removable tanks for easy dump and refill
- 14" disc scrub path

SC750™

COMPACT BATTERY SCRUBBER

409263

- Traction drive standard
- Available in 26" and 28" discs, 28" cylindrical and 28" REV™ orbital scrub decks Wet or AGM Maintenance-free batteries
- Available in cylindrical or disc scrub decks
- Available in REV™ dual random orbital scrubbing technology

CA60

COMPACT BATTERY SCRUBBER

407427

- 20" disc and 20" and 24" orbital scrub decks available
- Fully accessible recovery tank with debris catch cage
- Intuitive control panel display for ease of operation
- Available in disc scrub deck and Boost® random orbital cleaning technology

SC1500™

STAND-ON SCRUBBER

- Less operator fatigue results in greater productivity than a walk-behind
- Stand-on design provides better sight lines and better maneuverability than walk-behinds
- Intuitive and easy one-button scrubbing controls
- 20" scrub path, available in disc or REV™ random orbital scrubbing technology

SCRUBBERS *cont.*

RA40

MICRO RIDER SCRUBBER

405355

- SmartFlow™ solution control system
- Excellent maneuverability
- Multifunction display with One-Touch control panel

AS710R

MEDIUM-SIZE RIDER SCRUBBER

405257

- Perfect for hard floor areas larger than 40,000 square feet
- Available in wet, AGM Maintenance-free batteries
- Now available in TPPL Maintenance-free batteries with a 3-year, full replacement battery warranty

AUTONOMOUS SCRUBBERS

Robotic cleaning solutions offer the ultimate labor-savings in floor cleaning technology. Fully autonomous and designed for consistent results with minimal oversight. This high level of operational safety allows staff to focus on tasks that benefit the most from valuable human effort, and provides the means for unmatched productivity in any large-scale cleaning operation. Autonomous floor scrubbers act as another member of your cleaning team, and are certified to robotic safety standards so they are safe for use in populated areas like supermarkets, hospitals and healthcare facilities, schools and universities, retail malls, airports and office buildings.

about about Nilfisk
autonomous scrubbers.

Nilfisk Liberty SC50

AUTONOMOUS SCRUBBER

408636

- Free up operators for value-adding tasks
- Smart obstacle detection and path planning
- Manual operation mode, plus two autonomous modes of operation:
 - CopyCat™ mode – allows you to set a designated cleaning path
 - Fill-In mode – trace a room's perimeter and interior space will be cleaned without any further assistance

Nilfisk Liberty SC60

AUTONOMOUS SCRUBBER

- Driven by BrainOS® - the world most adopted robotic navigation system
- Connectivity for performance and usage monitoring
- Smart obstacle detection and avoidance system
